Dec. 4 Memo from Tony Gallegos regarding surface disturbance on Organa Mineral Products mining claims S/055/013 (UTU-71446), Wayne County, Utah.

Please be advised that there has been no mining activity on any of the Organa Mineral Products claims for several years past. Complete restoration was made of the area when the last mining activities was concluded.

Approximately 2 years ago, we discovered that some unknown party/or parties had stripped an area in proximity to the restored area, and had removed a bulk sample of material from the carbonaceous material exposed by the stripping. To date we have been unable to ascertain who created the disturbance and removed the bulk sample.

Sincerely

M Gary Jackson, Agent
Organa Mineral Products, Inc.
